

**THE SEVENTH EUROPEAN CONFERENCE  
FOR SOCIAL WORK RESEARCH  
AT AALBORG UNIVERSITY, DENMARK  
19TH - 21ST OF APRIL 2017**

**CHALLENGES IN SOCIAL WORK RESEARCH  
– CONFLICTS, BARRIERS AND POSSIBILITIES  
IN RELATION TO SOCIAL WORK**

Social Work Research is linked closely to the complex world of social work and to different stakeholders and interests within the field. This diversity of interests raises a range of challenges in social work research.

The seventh European Conference for Social Work Research will - from different stakeholder perspectives and approaches - focus on experiences, conflicts, possibilities, dilemmas and barriers connected to social work research as a part of the knowledge production in and about social work.

Topics for the conference will address a range of challenges connected to the complex research and knowledge production processes in social work through interesting examples, relevant theories and different methodological approaches.

The European Social Work Research Association (ESWRA) and Aalborg University Denmark invite researchers from Europe and beyond, to participate in the discussions, presentations and sharing of experiences.
